

The North Staffordshire Allotments Network Equality and Diversity Policy

The North Staffordshire Allotments Network is aware & recognizes that certain groups and individuals within society are discriminated against and we wish declare our commitment to the equal treatment of everyone and to ensure that prospective and present plot-holders are not treated less favorably on the grounds of age, disability, ethnicity, gender, marital status, sexual orientation, culture, religion or nationality or are disadvantaged by the application of other conditions or requirements which can not be shown to be justified.

The North Staffordshire Allotments Network will work within its resources and its governance framework to uphold these values. We refuse to tolerate discrimination, harassment or bullying. We uphold policies, procedures and practices that will promote equality in our dealings without fear of discrimination or disadvantage. Translating this policy into practice is the responsibility of all our members. People are entitled to be treated fairly, in a consistent manner and with dignity and respect.

Adopted on the 8th of December 2009 C. Ware
